## Tamagawa Selected by Boeing to provide Sensors for 737MAX

Tamagawa Seiki announced lately that it had concluded a Supply and Product Support Contract Agreement for the Sensor unit for flight control devices of Boeing 737 MAX, which has more than 1,600 orders from more than 21 airlines around the world.

This new business contract is expected to contribute for an Aviation business expansion of 2nd and 3rd tier supplier in Iida area.
